

**UTM2022**  
Polymer Char Users Training Meeting

# Users Training Meeting

UTM Valencia provides significant benefits for the attendees, such as practicing with real instruments during several hardware sessions in Polymer Char's laboratory, as well as meeting all our expert staff.

The UTM 2022 is being organized as a physical meeting and therefore a COVID-19 protocol has been developed for ensuring safety to all our attendees and Polymer Char's staff during the event. The health protocol for visitor care will be shared in the upcoming weeks.

May 18-20  
2022  
Valencia,  
Spain

## Key Learning Objectives:

- Review and enhance the **daily operation** of the instruments.
- Develop skills to be able to understand and **recognize the correct performance of the instrument and diagnose** a possible problem.
- Become familiar with the **available tools in the instrument's software** for troubleshooting and diagnosis.
- Learn the recommended **preventive maintenance tasks** and become capable of performing them.
- Become familiar with the **handling** of the most important elements and parts of the **instruments' hardware**.
- Share and learn from the **experiences of other users**.

## Contents:

Most of Polymer Char's instruments will be covered throughout the meeting\*, including GPC-IR®, GPC-QC, CEF, CFC, SGIC 2D, CRYSTEX® QC, CRYSTEX® 42 in terms of:

- Daily operation
- Troubleshooting
- Maintenance procedures and preventive maintenance guidelines.
- Calculations

If you have special requests that have not been listed here, please feel free to send them at [marketing@polymerchar.com](mailto:marketing@polymerchar.com)

\*Some of the sessions might be held in parallel due to capacity restrictions in the COVID-19 protocol.
